About Us

Our location at 2113 N. Orange Avenue opened to the public in early 1989 with its first production of David Mamet's American Buffalo and we haven't looked back since.

Since that first production Theatre Downtown has proven to be an invaluable cultural resource for the Central Florida Community, producing hundreds of plays from classics to cutting edge productions. Whether producing The Grapes of Wrath, or The Tempest, contemporary plays such as Sylvia or Wonder of the World...or original works from local playwrights, we bring our unique blend of professional, experience, and dedication to our work
